

Gone Crazy Knitting Blankets

Ever since getting the Addi Express I've gone nuts creating blankets out of sewn together knitted tubes.

You can see how I sew them together here...

Et Viola! a beautiful warm blankie (It's winter here in Australia)

I do them in contrasting colours

Then I add a piping edge once I have sewn them all together

I've even made some from joining all my left over yarn

or cutting up my tankled wool.

They are warm as warm because they are double thickness.
